PROCESS FOR LESS

SPECIAL PROMOTION For Credit Card Acceptance

- First of all we give you a state of the art, brand new (not refurbished) terminal to process payments. We don't try to sell, rent or lease you equipment and we will replace any bad equipment for free as long as you are our customer.
- Our nationally advertised rate is already lower than the rates you might find with your Bank, Sam's Club or Costco, and they usually make you buy or lease the equipment. We will give you the equipment and lower your rates!!!
- We also let you try our equipment and services out, and if you find you don't like either all we ask is that you simply return the equipment to us!!!
- And finally, if you happen to be under a contract with your current provider, we will pay up to \$295 to fulfill your contract and earn your business. It would be our pleasure to e-mail or fax you additional information on our program.

To Get Started

Do you own a business or know someone that does? If you have a need now or think you might see the need in the future to accept Credit Cards, then by all means the time is now to let IBG show you what we can do. If you currently accept Credit Cards you might be surprised to see how low our current rates are and how much real value we can add to your bottom line. Send us your merchant statement and we will give you a side by side savings quote. And don't forget, we provide all of our customers with FREE state of the art equipment.
